MOTION ON CONSENT TO AMEND APPLICATION

This Motion is submitted in response to the Order dated August 14, 2015. In the Order, the Board indicated that the Amendment requested by Opposer on July 9, 2015, was denied because "'Social networks' and 'platforms using text and video-chat' do not fall within the scope of the original recitation of services." Accordingly, the Opposer and Applicant have agreed to amendments that are believed to address the concerns raised by the Board.

Pursuant to Rule 2.133 of the Trademark Rules of Practice, Opposer respectfully requests that the description of services for the above-identified trademark application be amended to read as follows:

International Class [035] On-line promotion of social computer networks and social networking websites using text and video-chat, with emphasis on helping users discover information and ideas regarding on-line services.

A marked-up version of the amended services showing the proposed changes to the current description of services is as follows:

International Class [035] On-line promotion of social computer networks and social networking websites using text and video chat, with emphasis on helping users discover information and ideas regarding on-line services.

Applicant consented to this motion on September 4, 2015.

Respectfully submitted,
